## About me

Hi, my name is **Olamide Oseni**. I'm an innovative front-end developer who successfully switched careers into tech through self-learning. I build and plan exceptional digital experiences and am passionate about solving problems. I enjoy creating smart user interfaces, meeting, and collaborating with others.

## Attributes

- Design, develop, and test highly responsive and usable instrument interfaces.
- Validate design performance, requirements, and system integration through testing.
- Support the full development life cycle, including requirements analysis, architecture, design, implementation, verification, validation, and documentation.
- Outstanding communication skills, ability to communicate verbally, in writing, and via presentation in a manner appropriate for the audience.

## Relevant Experience

### Web Developer @ [naccong.com](http://naccong.com)

*Feb 2019 – Nov 2020*

- Worked with a team of two designers to build a marketing website and providing technological expertise.
- Interfaced with clients on a weekly basis providing technological expertise and knowledge.

### Freelancer @ [Olamideo Development Business](#)

*Nov 2020 – April 2022*

- Developed and maintained code for client websites primarily using HTML, CSS, Sass, JavaScript and JQuery.

## Skills
